STATEMENT OF COMPLIANCE PROCEDURES

Locus Telecommunications, Inc. ("Locus") is an established, leading provider of prepaid long distance, prepaid wireless, point-of-sale and carrier services.

As a provider of prepaid calling services, both wireline and wireless, which are offered predominantly to a transient public at retail outlets and kiosks, Locus is generally not privy to customer information such as name, address and other personal information because such information is not gathered at the point-of-sale. Locus' access to CPNI is generally limited to Call Detail Records (CDRs) and other data collected by its switches. CDR data is not associated with individual customer account information, but rather with unique PINS (personal identification numbers).

Nevertheless, Locus ensures that its business methods and operating procedures are in compliance with FCC Rules.

Locus ensures that no data or information, CPNI or otherwise, regarding our customers is ever sold to or provided to any third parties for any purpose, unless pursuant to lawful subpoena.

Locus did not use CPNI in any marketing campaigns during 2007.

Locus trains its employees regarding the appropriate use of CPNI and has instituted disciplinary procedures should an employee violate the company's policies.

Locus' internal network and onsite and offsite data are maintained securely through technology and other methods. All customer information is therefore protected from "hacking" and other forms of misappropriation.
