Statement of CPNI Procedures and Compliance

Amerimex Communications Corp.

Statement of CPNI Procedures and Compliance

Amerimex Communications Corp. (“Amerimex” or “the Company”) operates solely as a debit card provider and as such provides casual calling services to transient users with whom it does not have a subscriber relationship. Therefore, it does not have any information that relates to the quantity, technical configuration, type, or location of the customer’s service and does not even know the customers’ billing name and address. Because the service is provided outside of any subscribed service relationship, the Company does not obtain any CPNI that can be used for marketing purposes.

Amerimex does have call detail information concerning the calls made using the Company’s debit cards. However, this information is not made available to customers over the telephone, online, or in person.

Should Amerimex expand its business in the future to include the provision of services that involve CPNI, it will follow the applicable rules set forth in 47 CFR Subpart U.

The Company has processes in place to safeguard the call detail information that it obtains through the use of its debit cards from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to these records.

The Company has procedures in place to notify law enforcement in the event of a breach of the call detail records that it obtains from its provision of debit card service. Since the Company does not have presubscribed customers, it would not have the ability to notify customers of any such breach.

Amerimex has not had any such breaches during 2007, but has a process in place to maintain electronic records of any breaches discovered and notifications made to the USSS and the FBI.

Amerimex has not taken any actions against data brokers in the last year.

The Company did not receive any customer complaints about the unauthorized release or disclosure of call detail records in calendar year 2007.

Due of the nature of its business, Amerimex does not believe that pretexters would attempt to gain access to the call detail records that it obtains from the provision of debit card service, because the call details are not tied to presubscribed customers. Accordingly, the Company has not developed any information with respect to the processes pretexters may use to attempt to access CPNI.
