Dear FCC:

I would like to voice my opinion on why the merger between XM and Sirius should not only be allowed but no longer delayed. The topic of this being a monopoly is no different than Whirlpool, AT&T, Microsoft.... the list continues. Satellite radio is competing in several areas that include HD radio, MP3 player, IPODS, Internet music and conventional radio to name a few. Please stop the delay and wasting of tax payer money in order for people to experience the joys and advantages of satellite radio! Thank you for your time.

Sincerely,

Doug Pierce
