

Reply to Comments of Iona College:

It seems the various institutions served by a company called Privatel, Inc. all received a letter (possibly something extra was included in the letter) telling the institutes exactly what to write in a comment to this docket. I would make replies to the comments of IONA College but since they are exactly the same WORD FOR WORD as those of Stevens Institute of Technology, I simply direct your attention to those Reply to Comments.

This has been a pattern to many comments on this site. Apartment and condo owners and their associations also must have received a letter from a national organization. They too simply stated the same comments WORD FOR WORD that Iona and Stevens have done. And these are supposed to be institutes of higher learning!! I expected a little better.

I also now suspect that Privatel, Inc. may not be the exception I thought it might be when I made my reply to comments in the Stevens case.
