

I believe it is time for America to stand firm on their belief to refuse to allow 14% of the people of America to set the rules for the other 86%. As a believer in the one true GOD, a voting member of the state of Texas, and a taxpaying citizen in good standing with the IRS. I believe it is time the ones voted into office start listening to their constituents and allow them to have their stations on television and radio as you allow the likes of comedians, talk show host, and x-rated stations to air on television and radio. If I do not like what they have to say or do I do not have to watch or listen to it. I should be allowed to listen and watch without interference from those whom are prejudiced toward christian believers.
