

Please protect the Americans' Freedom of Speech by supporting Christian Freedom of Speech on radio. My family waits for these wonderful programs to come on--some members are unable to attend church or Bible studies and these are critical for their faith and hope in a confusing world. If we lose this freedom, what goes next? This hinges on our freedom of worship and freedom of the press. May God help us if we lose these freedoms and cause people to miss out on the freedom they could find in Him.
