

Verizon's blocking of NARAL's text messaging campaign violates the principles of free speech which are fundamental to our nation's freedom. The unrestricted ability of all citizens to communicate with the people and organizations of their choice must be protected whether text or voice.

Verizon's assurances that they won't block political speech in the future are absolutely insufficient. The FCC MUST take action to ensure that this un-American censorship never occurs again by making it clear that the nondiscrimination rules which have long applied to phone calls are also applicable to text messages and short codes.

Americans fight and die for free speech every day. Please do your part to support it also.

Thank you.
