

I am just amazed at the idea you would censor Christian Radio! If someone is "turned off" by it - they can change the station! Radio is one of the most effective ways to witness to others as well as to Christians who need what this music gives to their lives! I thought I lived in America (founded by Christians) and there are men and women fighting right now for these rights! Other stations can say and do what ever they want to - and you're trying to stop Christian Radio that could SAVE lives!! Leave us alone! Go censor those "nasty" radio stations! And while you're at it - read the Constitution!
