Dear FCC:

Satellite radio listeners represent less than 5% of national radio listeners. The combination of Sirius and XM will not only benefit the consumers but the entire radio listening industry. The companies have agreed to an a la carte pricing, in which the FCC has long sought in the cable TV industry. Unlike the greedy cable companies, the new Sirius will give the consumers options.

I ask that you approve a merger that will benefit the consumers and shareholders. Please do not listen to politicians that either have businesses that will benefit by failure of Satellite radio (Sen. Kohl - who has a deal to put his Milwaukee Bucks on terrestrial radio) or politicians that accept money from the NAB and companies such as Clear Channel (Rep. Gene Green).

Sincerely,
