Dear FCC Commissioners.

On this matter of the merger of XM Satellite Radio and Sirius Satellite Radio. I would ask that you move with utmost urgency to your decision in its fullness.

I ask you to do this, mindful of a weakening economy. A drop in consumer confidence. A growing threat of inflation. Higher oil prices. A faltering stock market. Dire mortgage and foreclosure numbers that grow each day at an alarming pace. This list of challenges is large..

This merger represents one bright spot with a backdrop of so much bad news wherein I believe your actions will contribute toward lifting the spirits beyond those individuals and organizations directly impacted with news of this merger and carryover into other segments of our markets and the economy.

This would stand as a sign that the FCC in concert with efforts by the Treasury Secretary, the Federal Reserve Chief, the DOJ AG, the Labor Secretary, all of you in your respective areas, are doing all each is empowered to do to assert stimulus to our economy to the maximum degree you are able...

Continued delay in this matter destroys capital, hurtfully destroys the investments of individuals as employees, as shareholders and as subscribers of these 2 companies.. These are cross-sections of people of all political affiliations, all spectrums, and

all incomes. I pray this holdup is not about politics. I trust that delays to this point are more attributable to the details that now lead you to your decision, a result of right-minded thinking, and not for partisan or ill-spirited reasons.

So please Sirs and Madams....
Make your decision... Make it public..
Do it now.

Thanks Greatly for this forum
Glen Silverman
