Deborah Taylor Tate  
Commissioner, Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Deborah Taylor Tate:

RE: FCC Proceeding 07-195

As you consider the service rules for the 2155-2175 MHz spectrum band, please make delivery of free and family-friendly wireless broadband (with service rule requirements to ensure it is available to at least 95% of the population) mandatory for any license holder.

We are living in an era where many Americans are struggling to make ends meet, where living costs are on the rise, and where by any objective measure, we are falling embarrassingly behind other countries in the deployment of broadband technology.

A free and universally available service would bring hope and opportunity to many Americans and would raise our economic competitiveness to the benefit of all Americans. Therefore, I encourage you to do everything in your power to move the machinery in Washington D.C. toward this important goal.

Please act today.

Sincerely,

norman woods  
5414749591
