

Dear people,

I ,would most certainly hope that you would do what the FCC was set up to do and that would be to keep things federally communicative. Just as I may not agree with many broadcasts that I have heard on the radio, I have a choice to turn the dial! This should also be true for the person that is not wanting to here Christian broadcasts, they have a choice, no one is forcing them to listen! When we get to that point again we have trouble on our hands dont we? Lets take a minute to ponder why we came to this country some two hundred thirty years ago, was it not because someone was trying to force somthing on us? Thank you! I am sure you will make a decision on the pending situation that is right for all concerned. Freedom!
