

Dear Mr. Martin:

Of the 276 or so separate Ex Parte filings in the ECFS, here are some counts(partial list):

Main merger parties

Filings by: Latham Watkins(representing XMSR) - 16

Filings by: Wiley Rein(representing SIRI) - 45

Others

Filings by: Georgetown Partners - 26

Filings by: US Electronics - 36

Filings by: Clear Channel - 17

Filings by: iBiquity - 10

etc etc.

We live in a democracy which means that all views must be heard but how many times Georgetown should be allowed to say the same thing. All this delays the process and makes government bureaucrats look silly.

I hope your staff has more resources than I have and can get you a fuller picture. That is only if FCC cares about the consumer and the agency is interested in bringing this matter to a conclusion.

Respectfully Submitted.

AG
