

Please stop restricting Christian or spiritual radio! Our nation is a nation under God and God is being pushed out of every aspect of our blessed nation. My family and I promise to vote and campaign against anyone trying to stop or restrict radio like K-Love and many other stations that give our country a sense of moral compass. The online portion of K-Love is our country's best export and one of its most valuable assets. Please stop trying to hurt the things that make this country great!

S. Baker
