

Please reconsider the changes you are proposing to our local radio stations (K-Love) in particular. The current format and programming are exactly what is needed and desired in our family and community. Our family receives so much from listening to the music and artists that are featured on K-Love. Requiring additional staff will only put a strain on the finances. This is a totally listener funded station. If you don't like or agree with the station, then you have the ability to change to something that suits your needs. I certainly do that with the many stations that I find inappropriate or lack any kind of taste or moral sense. Thank you.
