

K-Love Christian radio is very important to me and my family. K-love is commercial free radio and I support K-love with my donations. The proposed FCC regulations will add tens of thousands of dollars in additional monthly expenses that will result in the closure of many K-love stations and will result in the FCC dictating the content of what we can say on the air. I want to protect my Christian radio station so I can listen to the commercial free music that inspires me and allows me to share the gospel with others. Please do not negatively affect the quality of Christian programming and the accessibility of K-love.

Sincerely,

Johanna Boucher
