

Christian music is very important to me. I do not want the FCC controlling what can be said or heard on KLOVE or stations like it. We would have to listen to garbage on other stations if our stations went off the air or if FCC was to require one board for all broadcasters. I do not want a secular board telling Christian radio what they can say or do. Appointed individuals may not be friendly to the Christian mission of the station. I do not want to see more staff required or the priorities given for use of Low Power FM stations (LPFM) as this might force some stations off the air. Please leave things the way they are. We have a hard enough time finding good music for our families to listen to.

Thank you!
