

I migrated here in US October 2006. I am from Philippines and it's K-LOVE station that helped me through those homesickness days that I've went through and still going through sometimes. Back home I also listen to a Christian radio station, and finding K-LOVE while scanning FM radio stations back on those days was a great blessing I thank God so much. It made me feel not too far away from home, uplifts my spirit & give encouragements in these ever changing world.

I hope you will consider the lives of so many, who had life changing experiences because GOD reaches/spoke to them through this Christian Broadcasting, in these new things you are trying to implement. God Bless you..
