Waterboro, ME 04087

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Freeport, ME 04032

I have watched the cost of cable TV increase, increase, increase over the years much more than what should be allowed for inflation adjustments and reasonable profits. Deregulation has caused Americans to pay unreasonable rates while allowing unjust profits for cable and sat. providers. If The FCC allows these corporations to control the internet I feel my 4th admendment rights and pocket book will be abused. The track record of high rates and abuse has already been proven and allowing any cable or sat. company to be a gate keeper would violate our Constitution. Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. I work with a company that runs a virtual office. In my home office, I rely heavily on reliable access to the world wide web. Ever since Comcast took over Suscom, I have experienced increasingly unreliable access to the internet. It fluctuates all day long, sometimes becoming unavailable for hours. I also have difficulties accessing sites I have been able to access without a problem in the past. Comcast blamed the problems on my network equipment so I now rent equipment from them. The problems persist and appear to be getting worse and all the while, I am paying higher and higher cable bills! I lose a significant amount of work time to internet black outs. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Newcastle, ME 04553

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Jon Edwards
PO Box 715
S. Freeport, ME 04078

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an

abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Dirk Faegre
225 Ashville Rd
Gouldsboro, ME 04607

The outright blocking, by Comcast, of peer-to-peer communications is just what worried me about letting them 'self control. Without Net Neutrality protections we can expect more of the same. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Lawrence Fischman

Montville, ME 04941

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Richard Flanagan
179 Covell Road
Fairfield, ME 04937

The kind of violation of privacy and freedom represented by Comcast's actions, as cited below, is simply unconscionable. I urge the FCC to take the kind of action that will not only protect individual citizens in their use of the Net but also send a sharp message to any entity that might be tempted to go this route in the future. Nothing less will be acceptable as a discharge of the FCC's commitment to the good of ALL Americans. Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. Kathryn Johnstone
712 Bradford Rd
Charleston, ME 04422

Today I'm writing to affirm my intense interest in this topic and continuing support of actions to make it illegal for any users or service providers to block or discriminate against the free flow of online information. I favor strong punishment such as suspension of licenses for violators who abuse the public trust by secretly interfering or discriminating against new technologies. The development and deployment of the Internet is an amazing and heartening example of what freedom of communication can produce. I am willing to risk being offended sometimes in exchange for the glorious access to information and ideas that abound, often so freely given, in the etherworld. No gatekeepers are needed or wanted. I ask you to be vigilant in protecting the neutrality of the Internet.

CHRISTINA JORDAN

Freeport, ME 04032

No company should be allowed to block what we get to share, discuss and view on the internet. America is about Free Press and we need to guard that with the utmost care. Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Brunswick, ME 04011

I am opposed to any cable company or other corporate entity blocking or otherwise limiting the free flow of information on the Internet. Our democracy lives on free speech, and free speech in this age demands net neutrality protections. I urge the FCC to take immediate action to put an end to this harmful practice where it is occurring, and in the case of Comcast, where it has occurred. The FCC must not allow other Internet service providers to follow Comcast's example.

Diana Lovejoy
85 South Whitman School Rd
Buckfield, ME 04220

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an

abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation. The internet needs to be free and accessible to all; the Public Square of the 21st century. Protect it for the people.

Imagine what this country would look like if there were no free and open sharing of information. We would not have a democracy. Democracy relies on a free press and since the press is owned and controlled by big corporations - to maintain our democracy we must have a free internet as the only way that unbiased unfiltered information is available. Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an

abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. Castine, ME 04421

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation. I am 87 and have lived long enough to remember the McCarthy era, I feel we are close to another period when our individual liberties are at stake. This is just one example of the failure of government officials to do their duty to protect our rights.

Ellen Tracy
PO Box 952
Ellsworth, ME 04605

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation. Do not set a precedent by delaying the imposition of sanctions/fines against Comcast for their unethical practices. The FCC should not be an entity that impedes communication, free market enterprise and free speech. Your immediate and proactive attention to this concern is greatly valued.

Nathaniel VerLee
49 Vance Ave.
Bangor, ME 04401

The actions Comcast has taken in spying on and blocking internet traffic are unacceptable, and represent breeches in our right to privacy and freedom of speech. Don't allow this corporation to govern an entity that rightfully belongs to the people.

Bill & Marilyn Voorhies
38 Clark Point Rd.
Bernard, ME 04612

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's miserable example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

David Wade
217 Commercial St.
Portland, ME 04101

Comcast's underhanded and deceptive blocking of peer-to-peer internet communications is precisely the problem millions of Americans have warned would occur without Net Neutrality protections in place. If this de facto form of censorship is allowed to proliferate, it will reduce communication, which is the heart of community, while doing irreparable harm to the economy. The FCC must take serious action to put an immediate and lasting end to this dangerous practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. No corporation is above the law, nor should be allowed to dictate what is allowed under our First Amendment right to free expression. The Internet today has become a vibrant engine for economic growth, civic participation and free speech. We simply can't allow for-profit corporations to determine what is in the public interest. Corporate gatekeepers have only their bottom line in mind, and therefore are a threat to democratic public dialogue. The FCC must insure that the web remains an open platform for communication. Otherwise, they have failed in their role to protect the free exchange of ideas and undermined the democratic ideal this country was built upon.

48 Salem St
Portland, ME 04102

Look... I am not a small woman. It is hard for me to find styles I like that fit me while living where I do. Thank God for the internet. I can buy flattering fashions from all over the world, in the privacy of my own home. I choose who I buy from. DO NOT LET SOME MONEY GRUBBING TELECOM CEO TAKE THAT AWAY FROM ME. I want to make MY choices from all of the ones that are available. No ISP should have the right to limit who I do business with. I believe that our government was formed by the people and FOR the people. So, do this for the people. All of us "little" people want CHOICES. We want variety. We want FREEDOM! Please choose Net Neutrality! Thank you.
