

K-Love Radio positively impacts my community with its uplifting, encouraging messages and music. When my 8 year old neice is in my care, I can turn on my radio and tune into K-Love without any worry of foul, explicit language, adult lyrics, negative messages, etc... K-Love also brings its postive messages and music to global communities. The new requirements of the FCC would negatively impact my K-Love Radio and other christian stations, thus negatively affecting my community, and the national and global communities K-Love Radio serves. Please save K-Love and christian radio and my right to freedom of religion. Put a stop to these proposed requirements. Thank you! You and the future of K-Love are in my prayers.
