

I listen solely to Christian radio. It is important to me and to my family. I don't want to hear the inappropriate and often sexual comments on secular radio stations. I also want to protect my grandchildren from such speech. Christian radio also promotes good moral values that I agree with. I oppose the proposed changes that are pending with the FCC. They would negatively affect the ability of Christian radio to broadcast in the most economical way. And it would affect their ability to put forth God's message and speak openly of Jesus Christ.
