

The US Constitution affords me the right to listen to a radio station of my choice. By requiring all stations to abide by one single standard set forth by certain individuals, this increases the likelihood that my station (a Christian station) will be censored on the grounds of "it might offend someone". With the Radio airwaves- you CHOOSE to listen to the station, it isn't forced upon you which station you tune into.

Please do NOT enact such regulations. This should be left to lawmakers to decide.
