

To whom it may concern,

Please see comments below, Each and every one of you bureaucrats should have to take Constitutional law on an annual basis. Stop treating society like children. Get a life. Read on.

1. Require Community Advisory Boards: One board overseeing all broadcasters in that area. Appointed individuals who may not be friendly to the Christian mission of the station.

We are adults, we don't need an advisory board to 'tell' us what to listen to, what is appropriate or anything else. Put down the Karl Marx book down, Welcome to the USA where at least temporarily we have free speech.

2. Require Additional Staffing: Adding tens of thousands of dollars in additional monthly expense to each affected station (even including some of our smaller facilities which ultimately might force us to leave the air in some areas).

Who is going to pay for this, let me guess, taxpayers if you are a favored radio station like NPR. The rest can just shut down if they can't afford it. What happened to Freedom of association. Pick up the Constitution it is a must read. My rights are well enumerated therein.

3. Force Many of Our Translator Stations Off The Air: This rule would give priority to many new Low Power FM stations (LPFM) rather than existing translator stations. This means many of our translators would no longer be able to carry K-LOVE programming.

This is ridiculous, again I cannot emphasize enough the importance of reading our founding documents.

As a Christian, as an American I am embarrassed that this is even being considered. Control the propaganda control the people. Eventually more Americans will tire of your petty nonsense. Get your nose out of my business. "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances. "

Read the above it is plain as the nose on your face.

God Bless
