

Please do not return to the 1970's rules for christian radio. I listen every day to news, weather, polical information, local news, music,talk shows and christian messages and teaching. Do not censor our free speach. There is a more realistic view of life and information on these stations. I do not want to hear just one side of everything. And they also alert us if there is danger. We do not need Washington ruling our stations.Thank you,

Marie Griesmeyer
