

Dear FCC:

On behalf of Tax Paying citizens who have commented using the ECFS in support of this merger and ALL of their children born 14/15 months ago, I send you a bag of used diapers from the "poster child" to express his/her love for the agency.

About two weeks ago I had offered assistance of my teenager son to draft the "options". My offer is still open. Obviously FCC is too confused to know what to do.

In one of the comments today writer sarcastically asked for a piece of spectrum for his mother. If you are going to give it to Jesse, what is wrong with Jessica, James, Jill or Jerry?

Make a decision, one way or the other. The FCC has shown enough incompetence. Now do the right thing.

Respectfully submitted!

AG
