

I am against the new regulations proposed on Religious radio whether it is Christian or otherwise. Please do not place restrictions on Christian radio to where they have to broadcast views that go against their beliefs. Again this goes for all religions. It is not fair as the old Fairness Doctrine would imply.

Each group should have a right and freedom to broadcast pertaining to their belief system, as long as it does not cause harm to our country, other individuals or groups. I do not feel that the groups should be forced to broadcast anything that goes against their belief system.

Thank you for your time and consideration on this matter.

God Bless!
