RE: Region 51 700 MHz Plan

Greetings:

This cover letter serves as a short explanation regarding the Region 51 700 MHz Plan.

The Region 51 700 MHz plan (in both hardcopy and electronic form) was submitted to the FCC via FedEx and **received by the FCC and filed on February 29th, 2008**. The hardcopy was scanned and placed on-line for review. However, it is difficult to read. To provide reviewers the ability to view in full color, the plan has broken up into 10 sections and uploaded.

Regards,

Doug Frankhouser, Chair
Region 51 Regional Planning Committee
