

I just would like to say that christian music as just as much right be on the radio then any others. does the words if it's not broken don't fix it mean any thing to you. It Even say in the Bible that government and religion do not belong. if you make the christian radio you make the old FCC rules go in affected then I think other radio stations should as well. this country was built on religion. the pilgrims came to the United States to have right to worship.

thank you for your time,
