Dear Communications Commission,

Local radio has all but disappeared from the dial in recent decades. LPFM stations bring community voices back to the airwaves. I strongly urge you to prioritize local programming on LPFM stations over satellite-fed translators across the country. I encourage the Commission to establish rules that fairly promote local ownership and programming over repeated signals from faraway stations. Thank you.

Sincerely,

Mr. Charlie Williams

Dear Communications Commission,

Local radio has all but disappeared from the dial in recent decades. LPFM stations bring community voices back to the airwaves. I strongly urge you to prioritize local programming on LPFM stations over satellite-fed translators across the country. Many people get their news on the area while commuting to and from work, including

updates on road closures in their area, etc...they rely on these local radio stations to bring them up to speed on local issues that matter to them.

Therefore, I encourage the Commission to establish rules that fairly promote local ownership and programming over repeated signals from faraway stations.

Thank you.

Dear Communications Commission,

Some 35 years ago I began my career in local radio. I moved on to other areas of the media, but I have watched with despair as local stations have either gone dark or have been replaced by a stations that just cookie-cutter versions of large-market stations...often times even being "cyber-jocked" by announcers thousands of miles away!

LPFM stations bring community voices back to the airwaves. I strongly urge you to prioritize local programming on LPFM stations over satellite-fed translators across the country. I encourage the Commission to establish rules that fairly promote local ownership and programming over repeated signals from faraway stations. Thank you.

Dear Communications Commission,

The dream that radio and TV might educate and communicate has been

destroyed by profit. We are so far from the possibility of being able to know one another and what is happening in our own communities that we would be better off with out these technologies.

Local radio has all but disappeared from the dial in recent decades.

LPFM stations bring community voices back to the airwaves.

I strongly urge you to prioritize local programming on LPFM stations over satellite-fed translators across the country.

We don't need MacDonald radio. Our children deserve better.

I encourage the Commission to establish rules that fairly promote local ownership and programming over repeated signals from faraway stations.

Otherwise, what does your agency exist for, if not to represent us, the people, the real stewards of the airways???

Thank you.

Dear Communications Commission,

It's a shame. The public owns radio airwaves, and yet corporate interests control this media. Additionally, local radio has all but disappeared from the dial in recent decades. LPFM stations bring

community voices back to the airwaves. I listen to two community radio stations almost daily: KGNU in Boulder and KUVO in Denver, and I support both of them with contributions every year.

I strongly urge you to prioritize local programming on LPFM stations over satellite-fed translators across the country. I encourage the Commission to establish rules that fairly promote local ownership and programming over repeated signals from faraway stations. Thank you.
