Re: Unlicensed Operation in the TV Broadcast Bands, ET Docket No. 04-186

Dear Ms. Dortch:

On May 7, 2008, Larry Page, Co-Founder and President, Products of Google Inc. ("Google"), and on May 8, 2008 Michael Dell, Chairman and CEO of Dell Inc., each spoke via telephone with Chairman Kevin J. Martin regarding the above-referenced proceeding. Mr. Page and Mr. Dell discussed their companies' strong support of unlicensed personal/portable white spaces devices and the importance of these devices for consumers. Both stated that their companies were willing to support GE Healthcare's proposal for protecting medical telemetry devices through the emissions mask in channels 36 and 38 described in the GE Healthcare *ex parte* letter of May 6, 2008. The parties also discussed how various technologies could protect incumbent operations against harmful interference, and the White Spaces Coalition's¹ interest in finding reasonable ways of achieving this goal.

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced docket. If you require any additional information please contact the undersigned.

Sincerely yours,

/s/ R. Paul Margie

R. Paul Margie

cc: Chairman Kevin J. Martin
