

I am against the FCC regulations that would force certain radio stations to air both sides of controversial issues.

The reason I choose the Christian station I listen to is to be able to listen to views I agree with. I don't agree with WWE Wrestling, I approve more of figure skating. Does that mean that WWE should have to show scenes of this sport?

My point is this...If the Fairness Doctrine is approved, it will take away what this country was founded on...Freedom of Choice. If it is approved, we've lost that freedom.
