Dear Ms. Weisensel:

Thank you for your letter in support of requiring any licensee of the 2155-2175 MHz band to provide free and family-friendly broadband service to at least 95% of the U.S. population.

The Commission recently released a Notice of Proposed Rulemaking seeking public comment on various proposals, including the ones you support, for wireless broadband use of the spectrum that is the subject of your letter. The Commission will consider all relevant information before deciding how to license the 2155-2175 MHz band. A copy of your letter and this response will be placed in the rulemaking docket (WT Docket No. 07-195) so that it will be included in the record for this proceeding.

Please let me know if I can be of further assistance.

Sincerely,

A handwritten signature in cursive script that reads "John J. Schauble".

John J. Schauble
Acting Chief, Broadband Division
Wireless Telecommunications Bureau

Dear Chairman Martin:

Attached you will find a letters from four of my constituents. They are concerned about the FCC's proceeding 07-195. I would appreciate your looking into this matter at your earliest convenience. Please respond to my constituents directly and copy my office.

If you have any questions, please contact Kelzie Beebe of my staff at 202-225-2906. Thank you for your assistance.

Sincerely,

Tammy Baldwin

December 4, 2007

The Honorable Tammy Baldwin
House of Representatives
2446 Rayburn House Office Building
Washington, DC 20515-4902

Dear Representative Baldwin:

RE: FCC Proceeding 07-195

As you consider the service rules for the 2155-2175 MHz spectrum band, please make delivery of free and family-friendly broadband a requirement for any license holder.

I also encourage you to adopt the plan as submitted by M2Z networks (www.m2znetworks.com) and require that any provider build to at least 95% of the U.S. population. Too many Americans are winding up on the wrong side of the broadband divide and the FCC has the power to improve the situation overnight.

Free, family-friendly broadband is in the public interest because it will make us safer and more competitive, it will create equal opportunity, and it will improve our great country.

Please act today.

Nothing is free. As usual the taxpayers that pay taxes will be paying the cost for your so-called free broadband.

Sincerely,

Kristi Weisensel
