Re: MB Docket No. 04-233

Dear Ms. Dortch:

I am contacting you on behalf of Cincinnati's Ronald McDonald House, a "home away from home" for families with critically ill children. We provide parents with a good night's sleep, home-cooked meals and all the comforts of home so that they, in turn, are best able to support and care for their children during their hospitalizations.

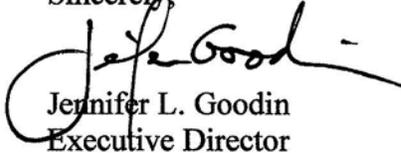

Our Ronald McDonald House benefits tremendously from our close working relationship with two local stations of Bonneville International-Cincinnati, WKRQ and WUBE. We have collaborated for years with their personnel, who have a vested interest in our charity's mission and helping us care for families in need.

Specifically, the stations from Bonneville International-Cincinnati have helped our Ronald McDonald House by:

- Airing news stories about Ronald McDonald House and our mission;
- Hosting a day-long "radiothon," which was very successful in providing much-needed donations and supplies for our charity;
- Inviting our staff to appear in an interview show to further educate the community on our mission and services;
- Regularly airing PSAs concerning issues of importance to our organization.

In conclusion, Bonneville International-Cincinnati (WKRQ, WUBE, WYGY, WSWD) has been very effective in serving Ronald McDonald House's needs as well as those of the community at large. We see so need for additional rules or reporting requirements that insert federal oversight of the process of broadcasters serving the community.

Sincerely,

Jennifer L. Goodin
Executive Director
