

As a consumer I have "ALL THE RIGHTS IN THE WORLD" to elect to pay for radio satellite services, but this government organization, the FCC, is taking away my rights. I'm a very smart consumer and I don't need your so called "protection"

Time Warner has a complete cable MONOPOLY as well as AT&T phone line in my area and I don't see the FCC doing anything about it, nor that I care, but why I can't choose what cable Co. I want? and your correct answer should be: "sorry dear consumer but this is due to our government bureaucracy and the inflow of money"

What make you think that the U.S. is full of idiots citizens?, because that's the way you are treating us.

Please STOP giving us the excuse that you are protecting consumer interest when opposing Sirius & XM merger, don't you think that we know why? YES WE DO, or ask Clear Channel CO. and others.

Government should protect us from extremely important issues like HEALTH not stupid radio broadcasting, give me a break, please.

keep this in mine: WITH MONEY DANCE THE DOG.
