**VIA ELECTRONIC FILING**

Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
Washington, DC 20554

Re: **Ex Parte Notice**  
WT Docket No. 07-195

Dear Ms. Dortch:

On May 29, 2008, Kathleen O'Brien Ham, Patrick Welsh and John Hunter of T-Mobile USA ("T-Mobile"), and Howard Symons of Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. met with Wayne Leighton, special advisor to Commissioner Tate to discuss T-Mobile's concerns about operations in the AWS-3 spectrum and reiterated the need for power limits and out-of-band emission protections to protect existing AWS-1 licensees.

In particular, T-Mobile noted that mobile-to-mobile interference issues, which would occur by allowing AWS-3 spectrum to be used for mobile operations, are extremely difficult to resolve.

T-Mobile also noted its recent launch of AWS-1 broadband operations in the New York market and its plans to launch service in other markets during 2008, arguing that its significant investments in spectrum rights, mobile equipment, and infrastructure must be protected from harmful interference by AWS-3 spectrum license holders. T-Mobile also pointed out that interference protection is essential to T-Mobile's ensuring the high quality wireless broadband services that consumers demand.

Pursuant to Section 1.1206(b)(2) of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-referenced docket. Please direct any questions regarding this filing to the undersigned.

Sincerely,

/s/ Kathleen O'Brien Ham

Vice President, Federal Regulatory Affairs
