Cellular South Meeting with Commissioner Deborah S. Tate

June 3rd, 2008

Cellular South Facts

- Founded in 1988; headquartered in Ridgeland, MS (Jackson metro area)
- One of the Nation's largest privately held wireless companies
- Over 700,000 customers – approximately 450,000 in rural areas
- Over 900 employees across the Southeast
- Licensed to provide wireless service in five southeastern states including, Mississippi, Alabama, Tennessee, eastern Arkansas, and the Florida Panhandle - totaling a population of more than 11 million.

Mississippi Gulf Coast Post-Hurricane Katrina

- Built back quickly - Never completely lost service even during height of storm in South MS; network 60% operational one day after storm; fully restored in 10 days.

- 470% increase in minutes on network as a result of traffic from other carriers' customers.

- Over 1 million calls on our network in first days after storm.

- Recognized with a concurrent resolution from the Mississippi Legislature commending Cellular South for the company's extraordinary efforts in Hurricane Katrina's wake.

- Fortified the network in preparation for future hurricane seasons through permanent microwave technology, new switches and installation of more than 200 permanent generators in cell sites across Coastal counties.

Expansion of Wireless Service in Rural America

- Two Keys to Providing Wireless Service to Rural Areas
  - Rural Carriers must be successful in acquiring spectrum
  - USF support to Rural Carriers must remain stable

USF is Important for Rural Consumers

- USF advances principles of Telecommunications Act of 1996
  - Services and rates in rural areas that are comparable to those in urban areas
  - Advanced telecommunications services available to all regions of the Nation
  - All consumers have the opportunity to benefit from competition

- Since first receiving ETC designation in December of 2001, Cellular South has invested $227 million in USF support in high-cost areas and has contributed an additional $56 million for network build out in these areas.
  - In the past two years, Cellular South invested over $25 million more in high-cost areas than it received in USF support for those areas.
  - Coverage in high-cost areas has been expanded over 10,000 square miles in MS and 300 square miles in AL.
  - The company has more than doubled the number of cell sites in rural high-cost areas of MS.

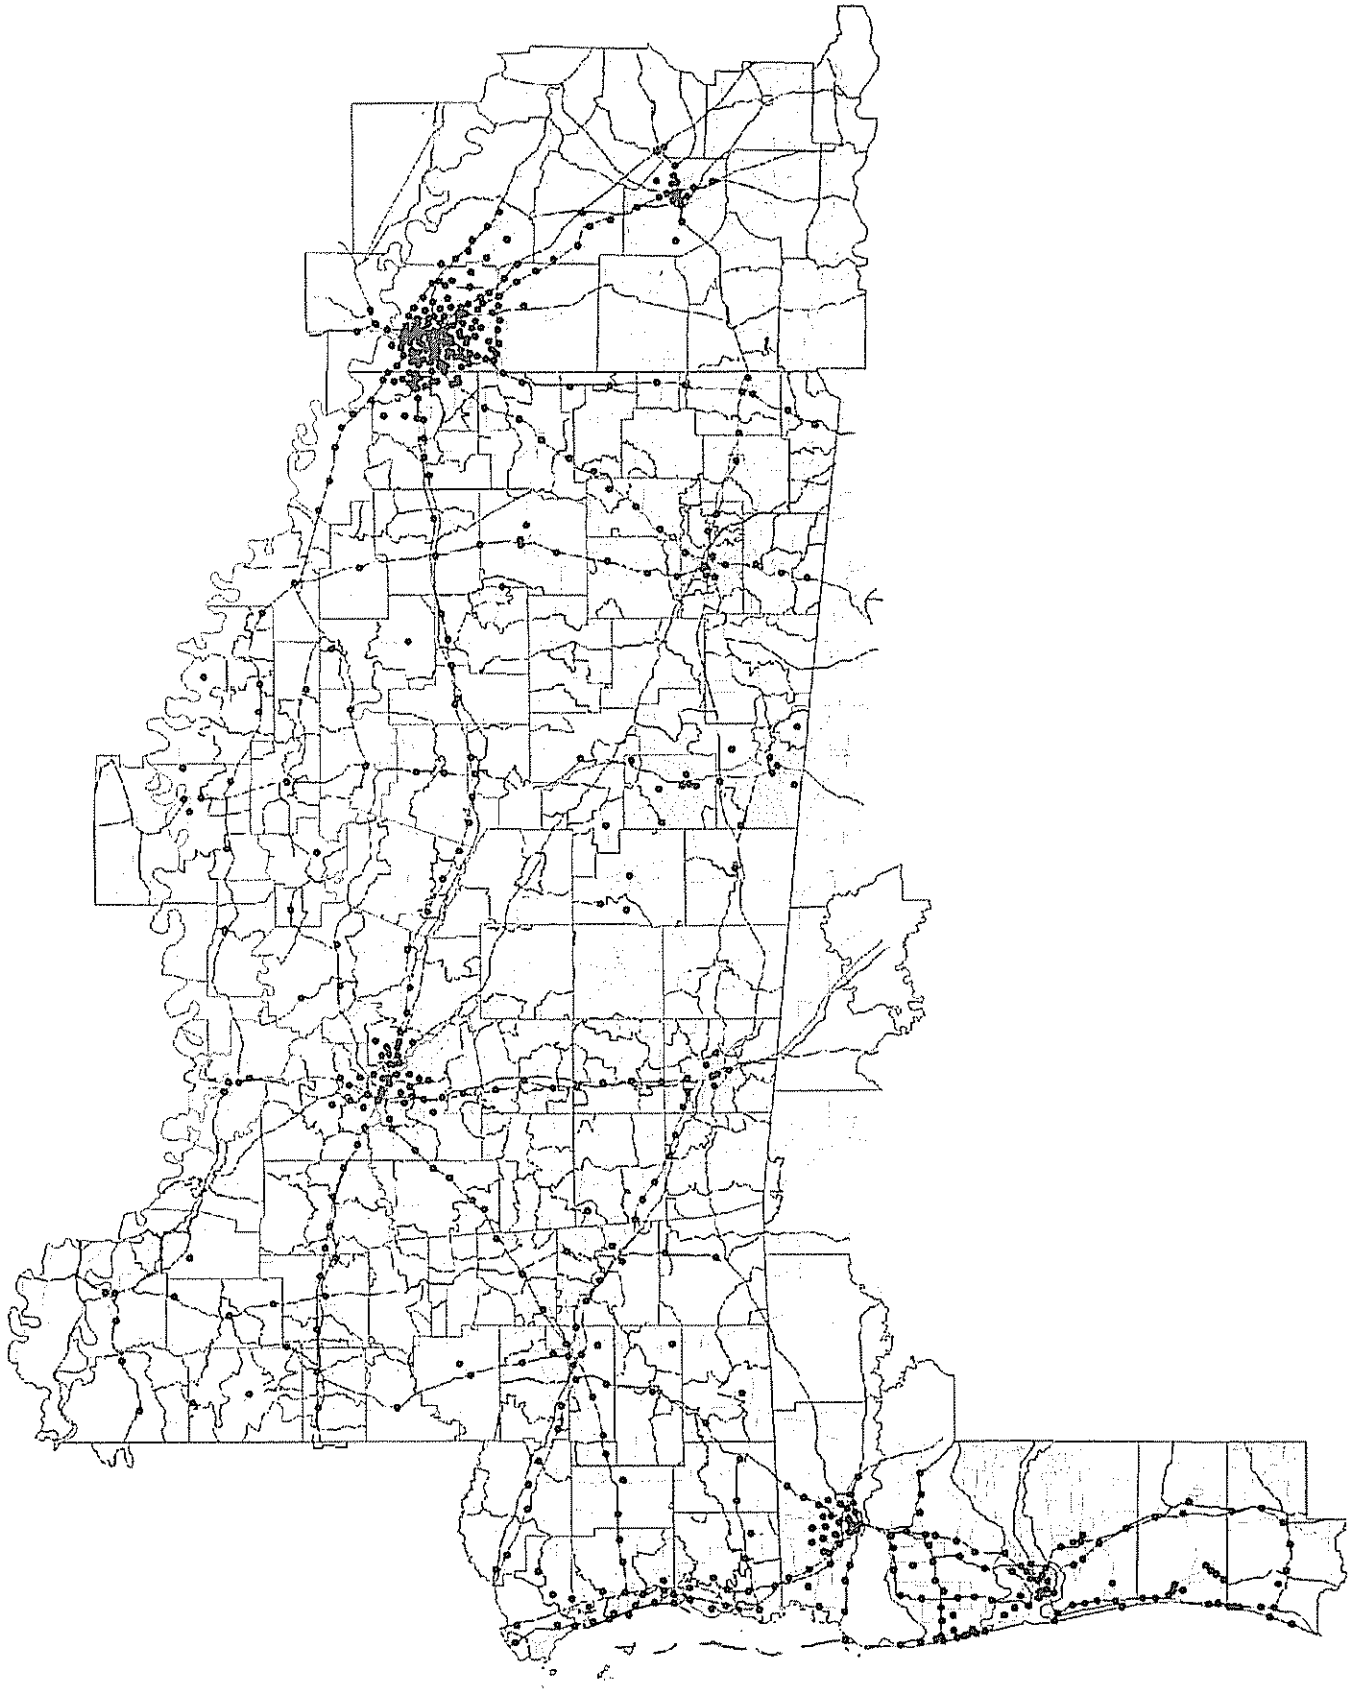
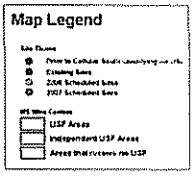
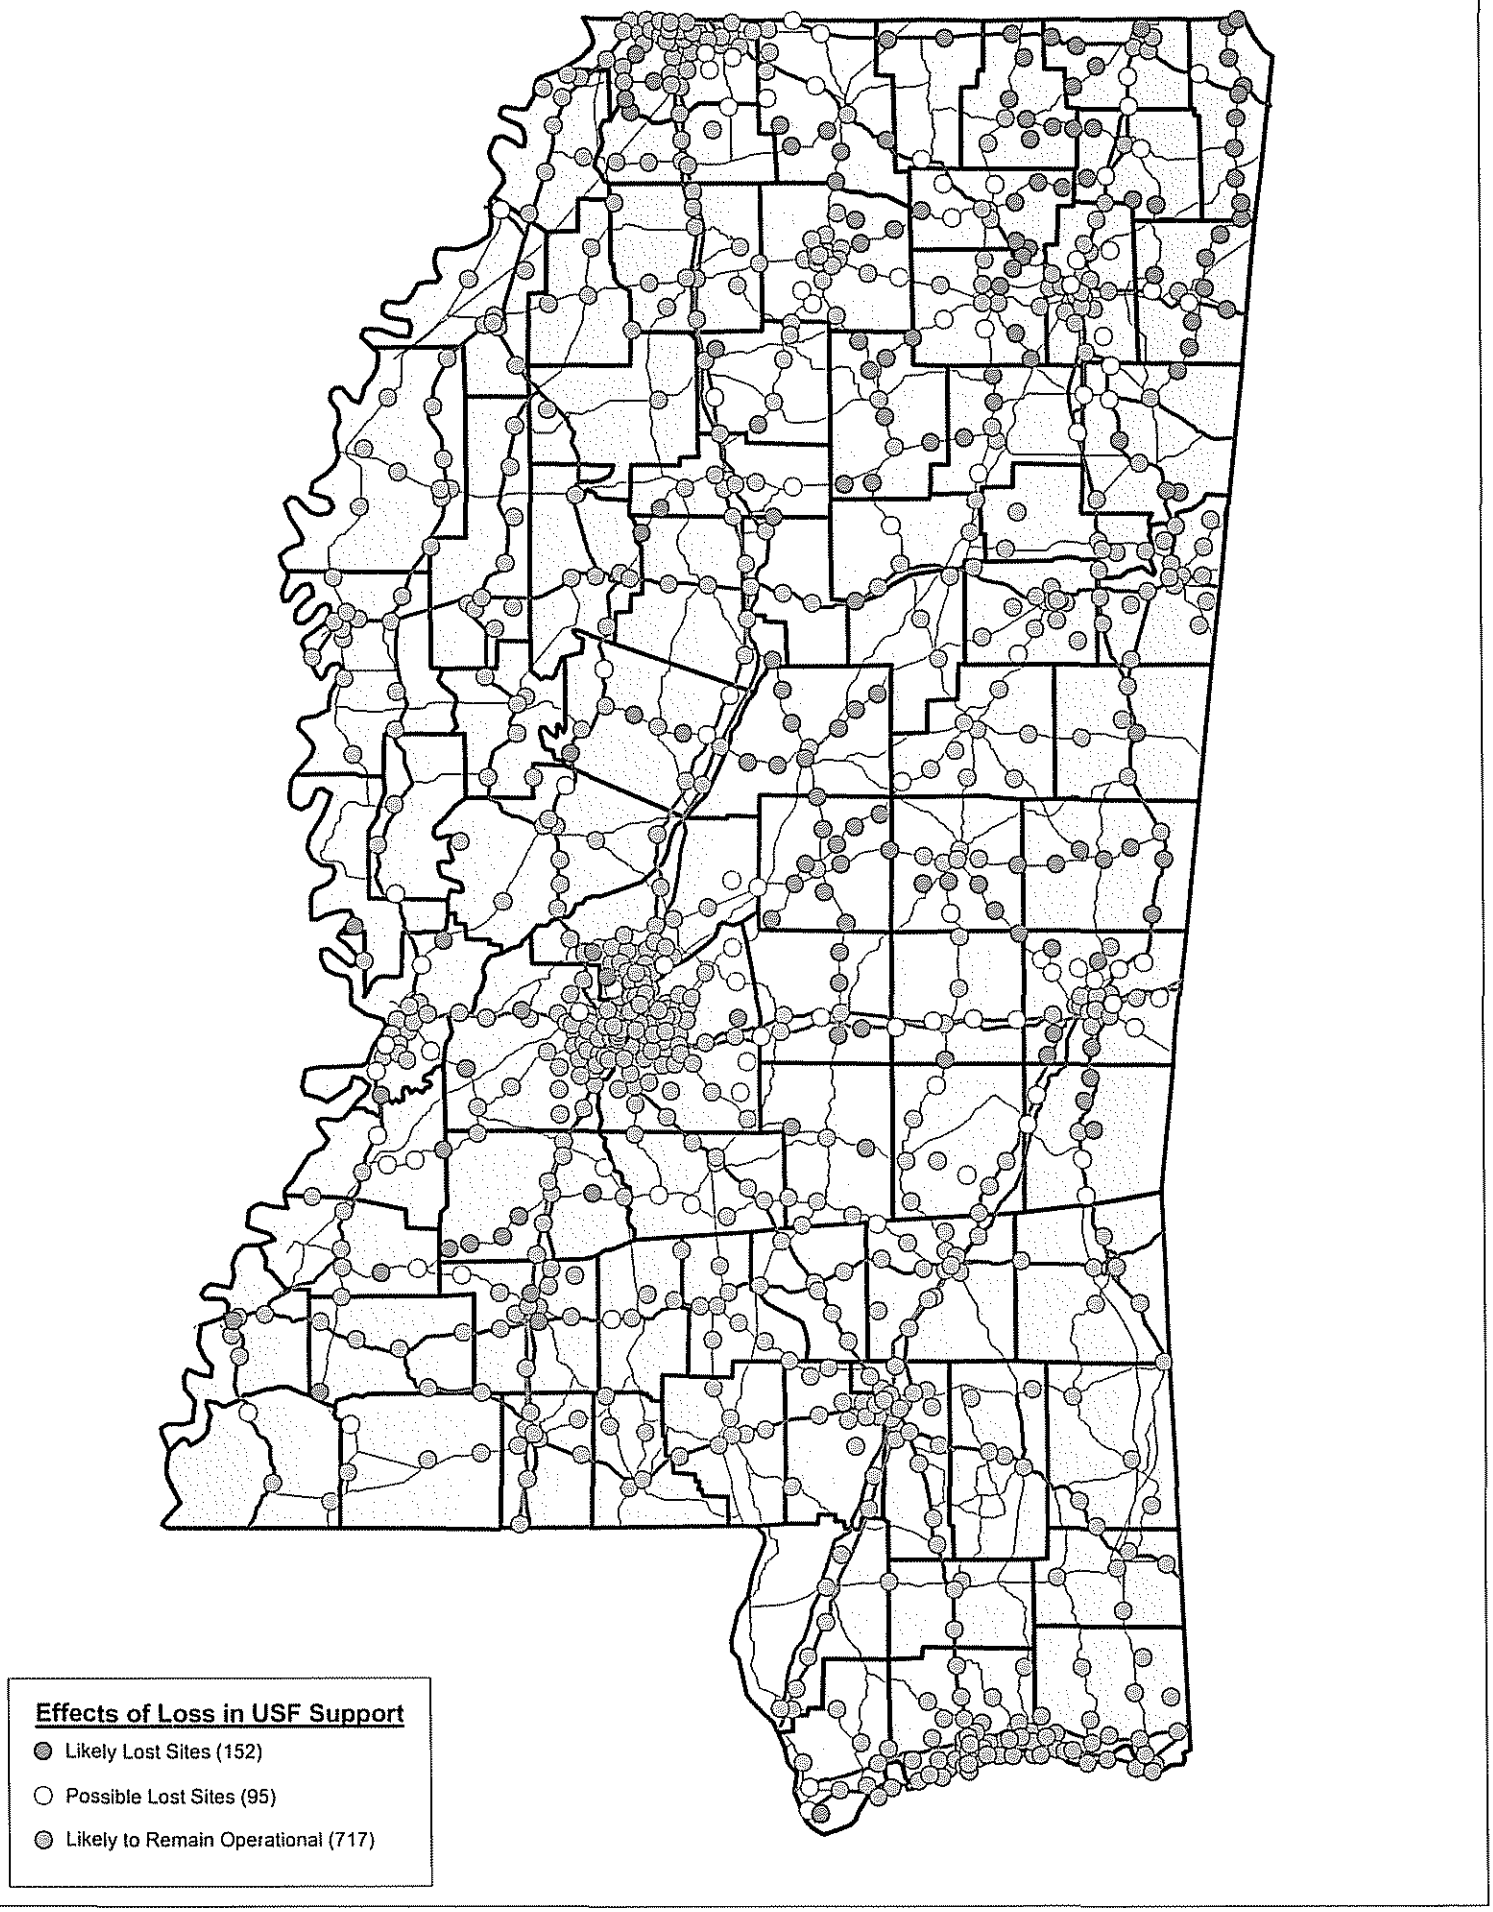
Prior to Cellular South Qualifying for USF





cellularsouth™

Since Cellular South Qualified for USF



Effects of Loss in USF Support
Likely Lost Sites (152)
Possible Lost Sites (95)
Likely to Remain Operational (717)

Summary

- Cellular South strives to serve all consumers in our footprint – including those in rural areas
- We take pride in our history of delivering wireless services to rural consumers
- Continued USF support is critical for companies like Cellular South to continue providing quality wireless service to rural Americans
