Dear FCC:

How could C3SR even think they represent all satellite radio listeners. They never once did a data collection to actually find out what the satellite listener wants to improve their experience. They are more interested in driving this whole sector into bankruptcy so that terrestrial radio can continue to dominate the market share. For C3SR to make a comment that they represent the consumer is a joke, this merger is going to save the consumer millions and increase radio listening to the channels he or she likes.....

Sincerely,

Shawn Smith
