Re: MB Docket No. 04-233

Dear Ms. Dortch:

The Seattle Seahawks are a National Football League team with a Pacific Northwest base of fans. We have worked closely with Bonneville Seattle and KIRO Radio for many years. KIRO is the flagship radio station for Seahawks game broadcasts, and they produce other shows discussing Seahawks football, interviews with players and coaches, and news of Seahawks community involvement. KIRO also serves as a partner with the Seahawks in many community endeavors.

Bonneville stations produce remote broadcasts covering charity events, raising both awareness and funding for dozens of community causes. We rely upon their interest in the welfare of the community to gain support for initiatives benefiting families throughout the Puget Sound area. Bonneville stations also work with the Seahawks to produce and broadcast PSAs benefiting charities throughout the region.

We are keenly aware of KIRO's intensive coverage of emergencies affecting people in our region. When severe flooding devastated Puget Sound areas last year, KIRO was quick to report the problems and how people could help. When storms caused power outages in during cold weather, KIRO helped families find shelters and warned of the dangers of alternate heating sources. KIRO also educates the public on political and social issues affecting Northwest residents, and enables them to voice their opinions.

We appreciate the focus of Bonneville Seattle on causes important to the Puget Sound region, and their attention to local issues. It is our opinion that the stations of Bonneville Seattle adeptly serve community needs within the present framework of federal oversight.

Respectfully submitted,

Mike Flood
