Re: MB Docket Nos. 04-233, 07-172, and 07-57

Dear Ms. Dortch:

On June 10, 2008, members of the National Association of Broadcasters (NAB) (see attached list), and the undersigned met with Commissioner Robert McDowell and his Legal Advisor Cristina Pauze and/or Commissioner Michael Copps and his Legal Advisor Rick Chessen to discuss the following matters.

First, the attendees discussed their concerns over several aspects of the Commission's recently issued Report and Notice of Proposed Rulemaking regarding Localism. In particular, we discussed the relative costs and benefits of reinstating obligations on broadcasters to locate a station's main studio within its community of license and to maintain radio station personnel on-site at all times. We also discussed the various ways in which broadcasters efficiently undertake ascertainment-like efforts in the absence of government regulation.

Second, the attendees inquired as to the status of the Commission's pending Notice of Proposed Rulemaking seeking comment on proposed rules changes that would allow AM radio stations to deploy FM translators, and explained that amending the Commission's rules in this manner would promote localism by enabling AM stations to enhance service to their local communities.

Finally, the attendees expressed their opposition to the proposed merger of XM Satellite Radio and Sirius Satellite Radio.

Please direct any questions concerning this matter to the undersigned.

Respectfully submitted,

Larry Walke

List of Attendees
