Re: Report on Broadcast Localism and Notice of Proposed Rulemaking
MB Docket No. 04-233

Dear Chairman Martin:

It has been brought to my attention that the FCC is considering changing re regarding the governance of local broadcasters. These proposed changes would greatly impact our local radio broadcast stations. As I understand the situation, these proposed regulations would result in significant financial stress on our local stations; which are likely beyond their economic capabilities.

Our local broadcasters provide many services to our local communities such as weather information and public service announcements. I am opposed to regulations which cause undue harm to our local businesses and potentially cost citizens their jobs during these difficult economic times.

These regulations would not only affect broadcasters but our communities as well. I strongly urge the FCC to reconsider the proposed regulations concerning local broadcasters.

Sincerely,

Chapin Rose,
State Representative
