

I oppose the intergration of the local meadia outlets under the banner of FOR PROFIT for the large corporations. I beleve the public is best served by the local newspapers without the large corporatons deciding what we should hear or read from 1000 miles away, That is a terrible thing to do to the local radio, newspapers and tv. I strongly urge you to cease and desist the corparatee akeover of our media outlets in this country. Thank you
