

FIGHT BACK!! Save your internet freedom

This pisses my off, its nothing more than multi-million dollar corporations b!tching about making more money..while the average joe gets screwed.

Look at the oil companies, they are making money hand-over-fist right now..while we get stuck paying \$85 to fill up...where's the justice?

If I can't drive or fly anywhere then I should atleast be able to see it on the internet...just my 2 cents.
