Chicago, IL 60601

Dear Ms. Aloor:

The Streamwood Guns N' Hoses Association would like to thank you for your donation to our 10th Annual Charity Basketball Game held on April 18th. With your support, we raised over \$3,200 this year. The final score of the game was Hoses 29 and Guns 24.

A portion of this year's event went to a family whose mother is recovering from colon cancer and the father has been diagnosed with brain sarcoma; a family whose daughter was diagnosed in 2000 with a brain tumor and over the last eight years has had eight surgeries and chemotherapy and radiation treatments to treat her reoccurring tumors; a family whose daughter is afflicted with Tuberous sclerosis; a single mom with a special needs child, and a family whose infant was just released from three weeks in pediatric ICU with severe respiratory distress. The rest of the monies raised will help other families throughout the year in their time of need including the Thanksgiving and Christmas holidays.

It is because of caring and unselfish people as yourself and your business that enable us to bring a little ray of sunshine and hope to those less fortunate than ourselves. On behalf of the Streamwood Guns N' Hoses Association, all participants, and volunteers involved; I want to extend my personal thanks. For without all involved, this organization would not be possible.

We hope to be able to count on your support for next year's event. Thank you again for your continued support.

Sincerely,

Joanne Lorkowski
Vice-President

**Peter D. Cunneen Memorial Golf
Classic & Spa Day: August 18, 2008**

Dear Ms. Hamil:

Thank you for your generous past support of The Bridge Youth & Family Services Golf Classic. Events like our golf outing, with your generous support, help our clients get the help they need to live healthy, productive lives. Plus, care is provided to all families, regardless of income - *no one is ever turned away because of an inability to pay.*

We hope you continue to join us in our service to youth and families in the northwest suburbs by donating two tickets to an upcoming show in the Chicagoland area to our 2008 Golf Classic & Spa Day silent auction.

As you may know, The Bridge is a community-based, licensed and nationally accredited youth-serving organization. Its mission is to help young people and their families achieve emotional and social health through:

- Individual, group and family counseling for children between the ages of 0 and 17 and their families.
- Mentoring volunteers matched one-on-one with children in need of trusting, long-term relationships.
- Crisis intervention with immediate response 24 hours a day, seven days a week. The crisis team serves a six-township area in northwest suburban Cook County and responds to calls concerning runaway, locked-out or homeless youth from police, hospitals, schools and others.
- Parent education, skill-building classes, and support groups for children and adults.
- School-based substance abuse prevention for youth at local area high schools.

Again, thank you for your past support and we hope you will partner with us again. Together, we can make our community a healthier and safer place for all families. Please respond by completing the enclosed auction donation form today!

Warm regards,

John Castellano
Auction & Raffle Co-Chair

Jon Mariano
Auction & Raffle Co-Chair

P.S. The Bridge is a 501(c)(3) organization. Your donation is tax deductible to the fullest extent allowed by law.

YOU CARE ABOUT MAKING A DIFFERENCE.
WE CARE ABOUT MAKING IT EASY. *Volunteer!*

Dear Chairman Martin,

Chicago Cares is proud to have been chosen by WXRT as one of its nonprofit community partners this year. Their partnership and commitment to the community and work we do is invaluable.

Chicago Cares is the city's leading volunteer organization. We create, manage and lead 200 service projects every month as well as the city's largest day of service, the Chicago Cares Serve-a-thon. As a nonprofit organization that literally impacts everyone in the city, we looked for a partner that was as committed to Chicago as we were and had a diverse audience base. WXRT rose to the top of the list and has remained there ever since through their dedication and enthusiasm for the work we and our thousands of volunteers do every day.

WXRT has gone above and beyond our expectations by providing opportunities for public service announcements, advertisements to listeners and appearances on radio shows. Throughout our partnership, they have listened to our needs and proactively offered ideal opportunities for assistance to reach our goals.

WXRT's commitment to the community and Chicago Cares is unparalleled. We look forward to continuing and growing our relationship with one of Chicago's top radio stations.

Should you have any questions, please contact me at 312-780-0800, ext. 139.

Dear Chairman Martin,

In 2005, When C3 Presents came to Chicago to produce Lollapalooza in 2005, the event was mindfully developed with Parkways Foundation and the Chicago Park District as a civic partnership based on the understanding that working together builds a better city. C3 and Perry Farrell have joined us in our commitment to continually enrich our city's parks as open spaces for all to enjoy, play and participate in protecting the environment.

Almost as soon as the partnership with Lollapalooza was forged, WXRT also joined with Parkways, understanding that this was more than a music festival, that it was an opportunity to make a difference—a lasting impact in the city. And I remember that this was a natural and obvious partnership as WXRT has been a leader, THE leader in Chicago in promoting, supporting and being a champion for civic causes. And, WXRT does this with a creativity and ease because it has always been a part of the station's identity.

I recall Len Bramer on a phone conversation with Perry Farrell when the 2007 Lolla bands were announced. Perry is so committed to Chicago's parks, and the work of Parkways, that most of the conversation was about Lollapalooza giving back. Finally, they both realized that they better get to talking about the bands. For Parkways, this is a dream—to have a media company that cares so much about this city, that the improvements in the parks was as important to the conversation as the music.

Then, in 2007, Parkways launched GALApalooza, an event on the eve of Lollapalooza to raise additional funds for Parkways projects. Again, Tom Lisack and WXRT were first on board. You brought us to Marty Lennartz who emceed the event—and did so with enthusiasm. As we look to year two of this event, WXRT is continuously bringing us new ways to promote the Parkways cause—and have given us good leadership and advice on how to build the event.

For a non-profit organization that serves so many neighborhoods, there is not a dollar amount that can be assigned to partners like WXRT. The impact is tremendous—as Parkways gains visibility, our donor reach extends and more projects completed and programs launched. Since 2005, we have invested millions into neighborhood park projects including universally accessible playgrounds, programs for children with disabilities, community garden programs, and especially, a mobile recording studio that travels to parks for kids to record their own rap, hip hop, poetry.

We are proud of our partnership with WXRT, and grateful to have the best station in Chicago at the forefront in telling the great story of how Lollapalooza brings great music and great impact throughout the city.

Sincerely,

Brenda R. Palm

May 29, 2008

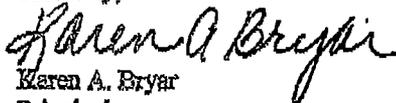

Dear WXRT,

We want to thank you from the bottom of our hearts for taking an interest in our Blair "Stars". I would like to share with you the aspects that make Blair an extraordinary Chicago Public School. We provide educational and specialized services to meet the unique needs of children from three to seven years of age. The majority of our students have multiple disabilities. These disabilities include developmental delays, physical impairments, autism, speech/language impairments, traumatic brain injuries, visual impairments, hearing impairments, other health impairments, and severe and profound cognitive impairments. Most of our 150 children (100 confined to wheelchairs /requires assistance for walking) will require special education services, accommodations and continuous therapy throughout their lives.

Your community connection with Half Price Books/Half Pint Library is the reason why we have a brand new Literacy Center. Gaining the Half Pint Library has helped to allow our students to have increased academic and therapeutic services which are so imperative especially in their early years. We are striving to teach our children to be independent and build their self esteem. In our children's early years Blair provides a loving and safe educational community which allows students with disabilities to learn, communicate, socialize, and walk. Most importantly we aim to develop independence, a positive self image and ultimately prepare our students to transition to an inclusive school setting.

Katie Funkey, the Director of Sponsorships and PJ Lewis, the National Sales Manager from WXRT are the reason why we even heard about the Half Price Books/Half Pint Library. We couldn't have asked for more genuine and caring people to support us in carrying out our school's mission to have a Literacy Center. Katie and PJ even took time out of their busy schedule to join us for our Literacy Center dedication which took place on April 10th. We can't thank them enough for being such a quality community partner and connecting us with Half Price Books/Half Pint Library. We also look forward to continuing our fond partnership with the people from Chicago's Finest Rock 93XRT. Our parents, families, and friends of Blair are so appreciative to WXRT and the fine people who work at the station.

Sincerely,

Karen A. Bryar

Dear Chairman Martin,

We are writing this letter to express the value and impact that 93XRT's relationship with Rock For Reading has had since our founding in 2004. We at Rock For Reading believe that there is incredible synergy between our organizations – a deep commitment to Chicago and giving back to our community.

There is tremendous need to impact literacy in our communities. Little that people learn is as valuable in their daily lives as reading. Reading matters in the world of work, citizenship, and our personal lives. Whether dealing with the Internet, a newspaper, computer manual, or a novel, reading is essential and will continue to grow in importance.

According to the National Endowment for the Arts:

- One in Three Chicagoans is functionally illiterate.
- 5% of the U.S. reads consistently – 39% never read.
- Illiterate adults earn 42% less than high school graduates.

Our partnership with 93XRT makes our voice louder in creating awareness and resources to fight the rising trend of illiteracy. Our main vehicle for achieving our mission is through high-profile music concerts. Norm Winer, 93XRT Program Director, is an active member of our Advisory Board. With his leadership and our partnership with 93XRT, Rock For Reading has featured artists such as David Gray, Lucinda Williams and Steve Winwood among others. Currently, we are planning to expand our impact through Rock For Reading's Concert for Literacy by having it at Millennium Park, in partnership with the City of Chicago and the Chicago Public Library during the City's Book Festival Month. 93XRT is a lead partner in planning and ensuring success of our Concert for Literacy.

This type of exposure not only creates awareness of the issue of illiteracy, but also generates partnerships and funds to reach some of the City's most needy residents.

- To date, Rock For Reading to raise over \$1 million through monetary and book donations.
- Rock For Reading has supported 44 community organizations, Chicago public schools and Big Shoulders schools through a combination of monetary and book grants.

These successes would not be possible without partners like 93XRT. With the support of its staff and leadership, 93XRT supports Rock For Reading, Chicago and the community organizations striving to make it a better place for all of us.

Feel free to contact us for further information on the impact that 93XRT has on Rock For Reading, our community and actively participating in our vision to create a community of readers and a community of dreamers.

Regards,

Alice Peacock

May 29, 2008

Chairman Kevin J. Martin
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Martin:

Metropolitan Family Services was delighted to be selected as one of two beneficiaries of ONXRT: Live from the Archives, Volume 9. We are grateful for the partnership of WXRT-FM in supporting our mission to provide and mobilize the services needed to strengthen families and communities. Metropolitan Family Services is especially grateful for the generous donation of \$57,180 to our Out-of-School-Time programs made possible by the sales of ONXRT Volume 9. We received this contribution on March 12, 2007.

Metropolitan Family Services operates Out-of-School-Time programs at eleven Chicago Public Schools around the city. Our partner public schools are considered, "low performing, high priority schools" by the Illinois State Board of Education and are located in low-income and often violent neighborhoods. Students who live in these communities face daily and constant challenges to stay safe and succeed in school.

Out-of-School-Time programs target youth who are at risk of school failure, dropping out, or engaging in risky or criminal behaviors offering them a dynamic environment and safe haven in the dangerous after school hours. Academics are the focus of Out-of-School-Time services, with tutoring, homework help, and math and reading programs. Metropolitan Family Services provides life skills education and access to recreational and cultural activities to expand the horizons of low-income youth. Metropolitan Family Services also implements the best practices approach of the community schools model at our partner schools. This model positions the school as a resource hub for students, parents, teachers, school administrators and community members which heightens the importance and value of that school.

Last year, Metropolitan Family Services reached 1,605 youth clients and 637 family members through the Out-of-School-Time programs. Results from the program include:

- Youth are more interested in school - 84.6% improved or maintained their overall academic performance.
- Youth are better able to communicate with their peers and make better life decisions - 83.5% improved or maintained their relationship with peers and adults.
- Youth are more connected to the surrounding community - 76.1% of youth maintained or increased their participation in school and community activities.

One North Dearborn Suite 1000 Chicago, IL 60602-4322

Administration Headquarters 312.986.4000 Employee Assistance Network 312.663.5600 Legal Aid Bureau 312.986.4200

metrofamily.org

A strong example of community involvement comes from one of Metropolitan Family Services' Out-of-School-Time programs, which established the "Learn and Serve Take Charge Youth Board" to help teens and young adults build their leadership and communication skills. Students on the Youth Board identify a community problem and then create a plan of action to address the problem, and in the process empower themselves and strengthen their community.

The Youth Board's most recent project was inspired by one of their peers – a 16 year old girl awaiting a kidney transplant. Students partnered with two local dialysis centers to learn about kidney function, disease prevention, and maintaining kidney health. Students focused the service portion of their project on spending time with patients receiving dialysis treatment. Youth played games, read, and talked to adult and youth dialysis patients to take their mind off of the medical procedure. The Illinois Department of Human Services, who provided the grant to start the Youth Board, plans to use the dialysis program as a model for other organizations.

The WXRT-FM gift of \$57,180 allowed Metropolitan Family Services to continue Out-of-School-Time programming to facilitate the positive development of at-risk youth. This donation will partially support:

- Teacher stipends that provide extra instruction time to build on lessons from the regular school day, tutoring them and assisting with homework.
- Program Coordinator salaries that allow for the creation and development of programs including life skills training and recreational activities.
- Parent and Volunteer Coordinator stipends that allow for a collaborative atmosphere between parents and school personnel, inviting parents to volunteer on advisory boards and program activities.

In addition to programming support, WXRT-FM has been a critical element in Metropolitan's ability to raise awareness of issues facing the young and old, unemployed and working poor, long-time citizens and new immigrants in Chicago's struggling communities. Through significant promotional exposure; both on-air and print Metropolitan's name and mission was heard throughout Chicago.

Metropolitan is pleased to continue this strong relationship with WXRT-FM, a partnership that provides valued support for major annual events such as its Holiday Celebration and metropolitan, the latter presented by Metropolitan's young professionals' board.

We would like to take this opportunity to thank Chicago's favorite radio station, WXRT-FM, for its outstanding commitment to Metropolitan Family Services' Out-of-School-Time programs. We are proud to partner with WXRT-FM to help low-income and at-risk students in Chicago strengthen their ability to succeed in school and in life.

Sincerely,

Richard L. Jones, Ph.D.
President and CEO

CLEVELAND

Children's Hospital

Cleveland Clinic

May 16, 2008

TO: Mr. Kevin J. Martin, Chairman, FCC

FR: Mr. Christopher Abood, Cleveland Clinic Children's Hospital

RE: The superb community service effort provided by CBS Radio in Cleveland, Ohio

On behalf of the medical and administrative staff of Cleveland Clinic Children's Hospital, the internationally recognized hospital system based in Northeast Ohio, I wanted to inform you of the exemplary work that the management and staff of the CBS stations in Cleveland, notably WQAL, WDOK and WNCX, have done in a tremendous and ongoing partnership that continues to enrich and support our hospital and the services we provide to children and families in northern Ohio.

Our affiliation with the stations has included a number of events and activities which have allowed our hospital to introduce unique services and key staff members to our community. This has enabled health care consumers in our community to learn more about various medical conditions and treatment opportunities.

The stations have, at the same time, provided personnel to support the partnership in the most meaningful of ways: through visits on the hospital floors with our patients throughout the year.

While the stations have proven to be effective outlets for our advertising efforts, this affiliation with the CBS Radio Group in Cleveland goes far beyond any business relationship. When we've called to ask for the station's involvement in our community events, such as reading to young students or providing public service announcements for a major motorcycle ride to benefit our hospital, the answer has been "yes." And the promotion programs the stations have built for us haven't been limited to a day or a week. The support has been ongoing, so that a credible, effective bond has been built in the minds of the listeners between the stations and a vital health provider to the community.

The value of the airtime CBS Radio has provided to Cleveland Clinic Children's Hospital has been enormous, and the resulting community response has been dramatic. Most important, families are becoming better educated about how to care for their children.

This is an enduring partnership and for that we are truly grateful.

Christopher Abood

Marketing Programs Manager

May 26, 2008

Chairman Kevin J. Martin
Federal Communications Commission
445 12th St, SW
Washington, DC 20554

Dear Mr. Martin,

Working Animals Giving Service for Kids is a 501 (c) (3) charity. We train and place mobility service and skilled companion animals and give them free of charge to children with disabilities in the Northeast Ohio area. It is a hugely rewarding thing we do here, Mr. Martin. It is life changing for these children who need assistance. All that being said, we were for some time, the best kept secret in Cleveland Ohio.

Growing this charity has been accomplished with the vision of what we wanted to do, the perseverance of staying on task and the development of partnering relationships with those able to help us reach those goals. A most important partner has been 92.3 K-Rock Radio.

Over the past several years WKRK has given us the helping hand we needed to have a presence in this market area. They consistently make PSA time available for our fund raising efforts, their on air personalities have participated in our events, they have supplied remote broadcasts at our event locations and they have even invited us to join them at trade shows and events they themselves participate in to offer the opportunity to grow public awareness of our name and services. They are truly a partner and mentor for the growth of WAGS 4 KIDS in Northeast Ohio.

Their collective corporate identity is clearly driven with a commitment to community service. Their eyes are open to the need in the community they serve and they work toward leaving better what they have found. They have chosen to do the best possible thing for WAGS 4 KIDS with a sincere heart. We owe many thanks to the involvement of WKRK for the work they have done on our behalf. Their most important gift is a track record that speaks volumes on our ability to count on them in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Wendy Nelson', is written over a horizontal line.

Wendy Nelson, Executive Director
Working Animals Giving service for Kids

D.A.R.E.[®]

May 22, 2008

Chairman Kevin J. Martin
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Martin,

It is my pleasure to take this opportunity to write in support and recognition of the community service efforts being made by 92.3 K-Rock Radio in Cleveland, Ohio. While the D.A.R.E. program has a national recognition, its success can be measured by the level of strong local awareness and participation in each community.

We have always found an open door policy with WKRK Radio. The station, Marshall Goudy and his staff have consistently been available to us for promotion and support. It is clear that they have made a commitment to our community not only to entertain, but to enrich. They have shown over and over again a willingness to spread a strong message of support for programs to benefit the youth of our community.

In addition to my official capacity with the Police Department, I also sit on the local chapter Board of the Progeria Research Foundation. Naturally, we looked to have media support for the opening of this chapter and our initial fundraising efforts. Without a doubt, WKRK was my first call. As I expected, we had their full support.

Chairman Martin, in the world of public service, the bottom line is often funding. We are forever having to ask favors and concessions from those who could certainly sell their time or service rather than give it away. The reason we consistently are able to work with K-Rock is simple. They are philosophically open to our need. They are obviously a station that takes to heart the power of their airwaves in our community and as a matter of choice they run their business with a good intention.

We rely on our continued support and relationship with 92.3 K-Rock now and in the future. That is truly a community service commitment we can count on.

Sincerely,

Don Andrukat, Detective
Berea PD

Dear Chairman Martin,

.....
**PRESENTED BY
THE PLAIN DEALER**

My name is Jill Rembrandt and I am the coordinator of the John T. Carey Memorial AIDS Walk which has been held in Cleveland, Ohio for the past 17 years. This event is the largest single fundraiser which supports the 9 local non-profit organizations who provide essential services for the many thousands of people in Northeast Ohio infected and affected by HIV/AIDS.

.....
**MEMBER
ORGANIZATIONS**

Our event could not be successful without the support of our sponsors, both local and national. 92.3 K-Rock/WKRRK has been one of our loyal sponsors for the past few years. They have been instrumental in providing essential public relations, and spreading the word about our event. Through public service announcements, campus appearances, and providing a DJ to host our event, they have been a driving force behind the success of the AIDS Walk.

May 23, 2008

Dear Chairman Martin:

Each and every day across the United States, patients facing surgery, life-threatening illnesses and emergency situations depend on the American Red Cross for life-saving blood products. Without committed volunteer blood donors and blood drive partners, the American Red Cross could not continue its life-saving mission.

The Northern Ohio Blood Services Region in Cleveland, Ohio is incredibly fortunate to have a wonderful blood drive sponsor in 98.5 WNCX. Blood donors come in all age groups and walks of life, but we are not always able to reach them. WNCX has a unique audience with young adult listeners. Their uncanny ability to reach this valuable group is reflected in the creative approach they have taken to sponsor blood drives. Each year, WNCX hosts "The Blood Suckers Buffet." Their slogan is "Tax Man Got Your Money, We Want Your Blood." WNCX promotes the drive with radio spots, secures various donor thank you gifts from the community, broadcasts live from the event and numerous on-air personalities donate. Every year the response to this drive is overwhelming. This year's drive saw 235 people come to give and produced 199 pints which have the potential to save nearly 600 lives in our community.

WNCX's sponsorship of this drive each year allows us to maintain a strong local blood supply. In addition, their support of blood donation has encouraged many first time donors in our community to come forward and give. We are proud to work with them in our community and thankful for their continued support of the American Red Cross.

Sincerely,

Victoria Rothacker

Chairman Kevin J. Martin
Federal Communications Commission (FCC)
1245 12th Street – Southwest
Washington DC 20554

Dear Mr. Martin,

We are happy to have the opportunity of sharing with you the generous efforts of 98.5 WNCX, to assist the St. Augustine Hunger Center to meet the needs of the poor and homeless of the Cleveland area, particularly during the holiday seasons of Thanksgiving and Christmas. For over 10 years, WNCX, through its sponsorship of the *Transiberian Orchestra Concert*, has raised donations ranging between \$17,000 and \$25,000, to assist the efforts of our Hunger Center to provide holiday meals for between and 10,000 to 15,000 people on Thanksgiving Day and Christmas Day. WNCX's efforts not only provided the St. Augustine Holiday Meal Program with the largest monetary donation, but also made the community aware of the plight of poor families and homeless individuals in the Cleveland area. Their efforts made it possible for us to provide meals and other assistance to these families and individuals, not only on the special days of Thanksgiving and Christmas, but on the other days around those two special events.

In addition to this very special effort, WNCX continues to alert the community to the needs of the poor and the homeless throughout the year, sometimes spearheading food donations through our Center, and at other times, raising special donations for a particular need that our Center has. The support of WNCX makes it possible for us to serve the poor and the needy every day throughout the year.

Respectfully yours,

Rev. Joseph D. McNulty
Pastor, St. Augustine Church
Director, St. Augustine Hunger Center

Washington, D.C. 20554

Dear Mr. Martin:

I am writing to inform the Federal Communications Commission of the outstanding long standing relationship The Salvation Army of Greater Cleveland has enjoyed with WNCX Radio.

In addition to public service announcements and other on-air support in publicizing Army activities and events, WNCX has worked closely with The Trans-Siberian Orchestra and Live Nation to ensure that The Salvation Army of Greater Cleveland remains a recipient of an annual donation of \$10,000 from the Orchestra's Cleveland Christmas concert. Program Director, Bill Louis and others at the station have been a pleasure to work with and realize how important the \$10,000 gift is to the annual operations of The Salvation Army.

On behalf of The Salvation Army and the numerous needy people who benefit from the efforts of WNCX, I want to extend my most heartfelt gratitude.

Sincerely,

Philip J. Mason
Director of Development

Robin Znidarsic
(Chair)

Dear Chairman Martin:

Susan Arnold

I am writing to you on behalf of the Cystic Fibrosis Foundation in recognition of the wonderful support of Bill Louis and WNCX, 98.5 FM in Cleveland, Ohio. Bill and the station has been a supporter of our annual Lake County Great Strides walks for numerous years and we certainly would not have the growth and awareness in the community without their dedication and support. Our event is held the third Saturday of May as part of the National GREAT STRIDES walk weekend to benefit the Cystic Fibrosis Foundation at the Cleveland Metroparks- North Chagrin Reservation. Walkers from all over the Lake County area gather for this popular fundraising event to help find a cure for cystic fibrosis. We organize many fundraising events and rarely encounter a radio station and host, such as Bill Louis, that is as dedicated to the community. Bill and the station crew list the event for us, run PSA's on the radio and host us on air to discuss the event. Most importantly, Bill and the station crew attend the walk, raise awareness and even walk the route with the attendees.

The Cystic Fibrosis Foundation is proud to report that more than ninety cents of every dollar raised goes toward research to cure this disease. In fact, the CFF has received recognition in Smart Money, the magazine of The Wall Street Journal, as one of "17 charities that won't waste your money" as well as the #1 healthcare charity in the nation!

Tina Salo

Michelle Znidarsic

Suzanne Zak
(CF Staff)

Cystic Fibrosis is a genetic disease that affects more than 30,000 children and young adults in the United States. In basic terms, CF impairs digestion and causes chronic, fatal lung infections. Due to recent medical advances, the average life expectancy for those suffering from CF is now 37 years of age (up from 33.1 in 2004). The development and approval of new drugs are results of generous contributions like yours. In fact, gene therapy research and many other clinical trials are happening in our own backyard at Rainbow Babies & Children's Hospital and Case Western Reserve University. Nonetheless, there is much more work to be done to assure that people with cystic fibrosis live long, productive lives. For the first time in the Foundation's history, there is more scientific knowledge about CF than money available to fund all of the clinical trials. With your support, we can continue to increase the life expectancy of those with CF and be just footsteps away from a cure.

To one day make
CF stand for Cure
Found!

Taking Steps to Cure Cystic Fibrosis

Thank you for your time and the opportunity to express our appreciation for WNCX, 98.5 FM and Bill Louis. Feel free to contact us with any questions or comments at the Cystic Fibrosis Foundation (216.292.4437) or mail it to: Cystic Fibrosis Foundation, ATTN: Suzanne Zak, 4635 Richmond Road, Ste. 103, Warrensville Hts., OH 44128. Washington, DC 20554

Dear Mr. Martin,

The Cleveland Animal Protective League, the largest humane society in Northeast Ohio, has been honored and humbled to be the beneficiary of WQAL (Q104 FM)'s generosity over the past three years.

Every May the station devotes 18 hours of broadcast time for the Q104/Cleveland APL Pledge for Pets Radiothon. Their morning show team of Wilde & Fee move over to our facility for two days and broadcast live, telling stories of the wonderful animals that come through our doors and of the special people who rescue, rehabilitate and adopt them. There is a live phone bank that takes donations during the broadcast.

Over the past three years, the Pledge for Pets Radiothon has raised nearly \$375,000, and 280 animals have found new homes during the broadcast. Beginning two months before the radiothon, the station donates significant airtime and PSAs to a change collection program that precedes our event. This year, 716 individuals signed up to raise Doggy Dollars and Kitty Kash for us. Their donations totaled nearly \$60,000.

Q104 also provides the APL with crucial top of mind throughout the year and names us as the beneficiary of various other events the station does in the community.

We cannot overstate what Q104's commitment to the APL means to us. As a 501(c)(3) nonprofit, we receive no government funding for the services we provide to the community. Through the radiothon we are able to raise awareness, raise much needed funds, and educate the public about what we do for animals—and people—in our community.

We are so grateful to the entire Q104 team—their program director, on-air talent, promotions team, sales team, and event team—and to the station's management that allows Q104 to partner with the Cleveland Animal Protective League. The nearly 11,000 animals that come through our doors each year benefit from this amazing gift.

Sincerely,

Sharon A. Harvey
Executive Director

Washington, DC 20554

Dear Mr. Martin,

We are so thankful to CBS Radio for their most recent donation to our upcoming Del Frisco's Classic. Their gift of four luxury suite tickets and two grandstand tickets to the June 7th Bombardier Learjet 550 at Texas Motor Speedway valued at \$1,580.00 will help us make CF stand for Cure Found.

Cystic Fibrosis (CF) is the most common fatal genetic disease in the U.S. affecting approximately 33,000 children and young adults. A defective gene causes the body to produce abnormally thick, sticky mucus causing chronic and life-threatening lung infections and impairing digestion. Currently, there is no cure.

We are particularly proud of the Cystic Fibrosis Foundation's record as one of the top charities of its kind. The Foundation stands out among other charities because more than 90 cents of every dollar of revenue raised is available for investment in research, care and education programs. In addition, the Foundation just received a **coveted 4-star rating** for sound fiscal management from **Charity Navigator**, the largest charity evaluator in the United States. Thanks to the generous donations from individuals and corporations like CBS Radio, the predicted median age of survival for people with CF is age 37 - more than double what it was 25 years ago.

Warmest Regards,

Amy Van Vranken
Associate Executive Director

Dear Sir:

Our not-for-profit, community blood center provides over 90% of the blood products to more than 300 healthcare facilities locally. The blood supply is constantly in motion and there are certain times of the year that we face serious challenges in meeting the demand. Over the past three years KJJK, 100.3 Jack FM has provided support to our community blood supply by helping us recruit 569 blood donors through on air and promotional support during these difficult times. Each blood donation can affect three patients. In partnering with us, KJJK has potentially made an impact on over 1700 patients and their loved ones.

This station and their staff are also the first ones to give blood at their blood drives and to keep us in mind throughout the year regarding other ways they may be able to help us fulfill our mission of making transfusion possible.

Carter BloodCare is proud and thankful to have KJJK-FM as a community partner in Dallas-Fort Worth.

Best regards,

RE: KJJK, 100.3 Jack FM

May 22, 2008

Dear Chairman Martin,

Being a non-profit organization, March of Dimes has a strict policy – we will not spend money on advertising – we rely solely on the generosity of our media partners to publicize our events and to educate the general public on our mission. Over the years KJJK, 100.3 Jack FM has been instrumental in doing just that.

KJJK, 100.3 Jack FM has been a media sponsor for our signature fundraiser, March for Babies for several years. Not only do they air our PSAs but they continually go above and beyond by doing the following:

- Sending promotional crews to March for Babies: these promotional crews add a level of “hoopla” and credibility to the event. Our participants expect to see our media partners at March for Babies.
- Posting the March of Dimes logo, along with a link to our fundraising page on KJJK, 100.3 Jack FM’s website (www.jackontheweb.com) for a period of four weeks providing up to 169,000 hits.
- Providing music for March for Babies for the last three years. This consists of multiple CDs of Jack music with voiceovers thanking our attendees for their participation. This adds a significant amount of energy to the event.
- Allowing a March of Dimes representative to appear on their public affairs show – this adds a whole new dimension to our publicity efforts – allowing us time to talk not only about our fundraising but also about our mission and how we are helping the community have healthier babies.

Over the past two years alone KJJK 100.3 Jack FM has provided over \$32,000 worth of publicity to March of Dimes March for Babies.

KJJK, 100.3 Jack FM also provides a valuable service to March of Dimes – they open the door to their sister stations. KJJK, 100.3 Jack FM has been influential in securing the participation of the other radio stations in their ownership group. This has lead to the airing of 359 March of Dimes March for Babies PSAs over the past two years – this is essential to our success considering that March for Babies comprises 79.8% of our total revenue each year.

We are extremely grateful to KJJK 100.3 Jack FM for their dedication to the community and to our organization. We rely on them to help make all our events successful. We thank them for their service to March of Dimes and to the community at large.

Sincerely,

Johanna Buck
Communications Coordinator

May 22, 2008

Chairman Kevin J. Martin
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Mr. Martin:

I am writing to you on behalf of KJJK, 100.3 Jack FM located here in Dallas, Texas. Thanks to KJJK, 100.3 Jack FM we have had the tremendous opportunity to bring awareness to the Dallas Community regarding HIV/AIDS. Their continued support of AIDS Arms LifeWalk, the annual AIDS Walk of Dallas, has helped us to raise over 7 million dollars in the fight against AIDS.

KJJK, 100.3 Jack FM has donated over \$100,000. in advertising and support to LifeWalk. This support has included on-air PSAs, website support and on-site support at pre-LifeWalk events throughout the metroplex area. Jack FM has also distributed our brochures and posters at their own events. They have greatly extended our reach into the metroplex area.

AIDS Arms believes the HIV/AIDS epidemic can be stopped. We do make a positive difference in the lives of thousands the epidemic has already touched, as well as preventing the infection of others. We also know we cannot accomplish our mission alone. It is imperative we always look for opportunities to work with others in creative ways. Jack FM's LifeWalk Sponsorship provides us another vital avenue of securing needed unrestricted funding. Our partnership with KJJK continues to help us in the fight against AIDS.

Kindest regards,

A handwritten signature in cursive script that reads "Margaret Byrne".
