There is also a weekly two hour program on Sunday night from 10-12m which is dedicated solely for Local/Unsigned musicians. Local bands are invited in to perform on the air and are interviewed by longtime host of the show, Neci.

WLIF

WLIF has featured local and unsigned artists as introductory acts for other, major-label artists at semi-annual concerts. Family entertainment events also have included choral troupes and solo singers, such as local Baltimore favorite, Angela Taylor.

WQSR

WQSR often features local artists as part of its ongoing Concert Series. Many times, these local artists will open for National Acts performing before large crowds.

WWMX

WWMX often features local artists on its morning show, "Jojo & Reagan." These performances range from local and regional choral groups to featured performances in an "up close" out-of-studio environment. WWMX has also featured artists signed to independent labels as introductory acts for other, major-label artists at semi-annual concerts.

BOSTON

WBMX

WBMX has always had a healthy dose of local music in the mix of our music. Boston is obviously home of a number of superstar acts (like Aerosmith), but the city has also been a great breeding group for acts that broke nationally thanks in part to the support of WBMX. Over the past decade, acts like Susan Tedeschi, Howie Day, Vertical Horizon and Guster (all on indy labels when WBMX first spun them) gained a foothold of major station airplay on WBMX. WBMX continues to support local groups as they try to establish themselves; we are now helping break 2 locals. The Last Goodnight (from the Springfield MA area) and Boys Like Girls (Boston natives) are both receiving regular airplay on WBMX.

WBMX also did a major unsigned band competition in 2006, "Mix 98-5's Who Wants to Open for Bon Jovi", in which we offering a local, unsigned or independent act the chance to open for Bon Jovi & Nickelback at Gillette Stadium in Foxboro for a crowd of 35,000 + people. The contest drew over 100 submissions from acts all over New England, and we ended up with 5

finalist. Those bands (Scamper, Lansdowne, Averi, Waltham and Clarias) were selected and given a space on the WBMX homepage to draw attention to the finalists. They then competed in a "Battle of The Bands" in Newport, Rhode Island, where Mix listeners were encouraged to come down and support their favorites. All the bands also received airplay on the station to showcase the songs that got them to the finals. The champion was Clarias, and they opened for Bon Jovi on July 22nd 2006.

WBMX also has a Sunday evening show called "Mix 98-5's You Oughta Know" that features new music from 9pm till 10pm. This program has offered a number of local acts some airplay; in recent weeks we have featured Stoughton native Laurie McKenna and Lexington musician Matt Nathanson. Each week we invite local musicians the opportunity to submit their music, which we then showcase on the show.

WBMX showcased local band The Click Five at our recent Mix 98-5 Free Summer Concert Series at the Shops at Prudential Center.

WBMX has also set up a prominent spot on our homepage for local and independent acts to submit their work. We recently showcased our first local submission, singer songwriter Mike Horn, which came to us from the independent Huskie Entertainment label. His music was featured on the local artist spotlight of the show "You Oughta Know."

WYUU

WYUU has played music from local artists including Pantera, Charlie Cruz, Ray Perdomo, Baby Boy, and Alexa. They are all played in normal rotation according to the song's popularity. WYUU has also invited local artists to play on stage at our yearly anniversary concert to help them get exposure.

WLLD

WLLD has aired the music of small label and independent artists after it was vetted by our programming team and backed with some sort of researchable data. In an effort to find local music, we hold local music only meetings, where unsigned artists can pitch their music to the station for airplay. We also take submissions via the net and direct mail. This system has given us local hits from Tampa Tony, Crazy, Strizzo, to name a few while also landing national recording deals for Rated R., Sonique, T-Pain, and 2 Pistols.

There is no specialized show for local music. If the music is given airplay, it will be vying for positions that national artists are as well. Local music could be played anywhere between 15-90 spins per week, as any label submission varies.

In addition to our local music only meetings we allow local artists to take part in our community shows LDS and WILDsplash.

WQYK

All programming decisions for WQYK as it relates to show content and music are made locally with the Tampa Bay listener in mind. WQYK has three syndicated music programs on the air (nine hours each week). All other programs are created and produced at the station for its listeners.

WQYK's weekly play lists are based on local research and are made 100% by its Music Director and Operations Manager/Program Director. Year after year, WQYK breaks new talent for country music.

WQYK has played and promoted independent artists for years. The station also uses local bands and independent artists to provide music for its events including Charlie-palooza and the Remembrance Ride.
