Dear FCC:

To the FCC and Legislators,
Greetings,

I for one do not agree with the proposed merger of the two radio stations and do not feel it is the best interest of the consumers who are subscribers. This proposed merger is another case, or example of reduced competition and the beginning of another monopoly which will end up increasing cost for the public, who will no longer have a choice of services or prices due to lack of competition. This merger will eventually definitely cause prices to rise in the future, no matter what these companies say now. This merger is mainly due to poor management on the part of both companies and is seen as a way to bail out themselves for bad management and poor business decisions Thank you for listening to my opinion and I hope that you will consider the consumers as opposed to big business trying milk out more money from the consumer and looking for a "bail out" as so many other businesses are trying for

Sincerely,

John Reichow
