

Dear FCC Commissioners:

Does any of you five burueacrats have the wisdom to answer the following simple question:

What new information have you personally uncovered towards the decision on this merger since the DOJ green light in late March?

Reading all the Ex-Parte filings on the ECFS, my answer is hardly any. See my posting yesterday in which I listed the six filings by Pioneer America (over five weeks) which basically said the same thing over, and over.

Therefore, you five have sat on this decision all this time for what? Is it inexperience? Is it incompetence? Is it Corruption? Is it the need for power? Is it just sheer stupidity? Is it.....

Stop this blackmail and do your job. Make a decision one way or the other.

The 18 million customers could have saved 6 dollars a month each with better programming choices. Over the past 6 months the savings would have added up to a lot of money. Since FCC is too incompetent, I will do the math and the savings amounts to 648 million dollars over 6 months.

And, you are delaying this decision for the best interest of the consumers. Shame on you! Shame to you all!

Get off your tails and make a decision NOW.

AG
