

Hello Five Corrupt Commissioners:

As a taxpayer I must ask you to explain your behavior. What new information have you received from recent meetings with special interest groups opposed to this merger. The Ex-Parte filings show, nothing new.

Then what is the cause of your inaction?

1. You are having trouble understanding the matter?
 2. You are paid by the opposers?
 3. You are looking for future employment with opposers?
 4. You are incompetent for the job?
 5. You are confused and overwhelmed by the volume of information?
 6. You believe Jesse Jackson is acting in public's best interest?
- etc etc

As I had stated in one of my previous notes, this matter has been mis-handled from day one. The Chairman must be assume responsibility and take charge. Mr Martin, ask these commissioners to get off their tails and demand a decision, one way or the other. And soon!
