

Hello five incompetent and corrupt commissioners:

How about we, your employers, freeze your salaries for six years and demand that you donate 25% of you take home pay to charities supposedly serving the minorities. How would that grab you? That's exactly what your black mailing amounts to.

I have said this before, this Docket has been mis-managed from day one. Where is the leadership at FCC? And here we are approaching day 500 and still no decision. Stop acting like a monopoly and do your job. Approve it ASAP and without conditions if you believe merger is in public's best interest, otherwise deny it ASAP. If you do not know what to do then resign ASAP.
