

Comparison of Wireless and ITSP Regulatory Fees per Customer

Note: The ITSP fee is based on a revenue factor. The average ITSP fee reported above is based upon the average wireline customer bill for local and long distance service, as reported in the FCC's "Trends in Telephone Service" report. The average monthly bill for 2006 - 2008 is assumed to be the same as for 2005, because the FCC has not yet released data for these years.
