

I am completely appalled by the fact that a developer who sits fat and happy in his multi-million dollar mansion has the right to tell me and my husband WHO we should be paying our hard earned money to for a service that is NOT even a Necessity! To add insult to injury, he then has the NERVE to tell me that we could have a lien placed on our home which we, like many of our other neighbors, have worked hard to purchase. You mean to tell me that the government thinks this is FAIR and JUST? I don't see how forcing me to pay someone else's cable bill just so I don't lose my home or my cable service can be considered fair OR EVEN LEGAL!! With all of the people losing their homes and the way the economy is suffering, you would think that people would not be coming up with other stupid ways for hard working citizens to lose their houses. Something needs to be done about this and FAST.

It's just NOT RIGHT! What if we decide we don't want the service or what happens if one of us loses our job? Should my neighbors suffer? Should I tell my family that we can't EAT BECAUSE WE HAVE TO PAY THE CABLE BILL? Are you kidding me? Where is our freedom to choose? Times are hard enough as it is without having to deal with mindless garbage from a company like LM Sandller who has made MORE THAN ENOUGH money off of us just buy selling us our homes in the first place. This whole situation is disgraceful and any decent human being should be EMBARRASSED to have families suffer through something so trivial just to make a dollar! There needs to be JUSTICE!
